

# **A**LDERNEY ELECTRICITY LTD

Dear Customer,

Power to Chateau L'Etoc, Longy Bay, part of Petit Val; and the Arsenal area of the Island has been isolated due to the adverse weather conditions.

Overhead lines in the area have been affected by high winds and settling ice. This has caused damage which cannot be investigated or repaired until the weather has abated.

The situation will be monitored, and we will keep you informed.

Power will be restored when it is safe to do so.

Please contact 822715/822155 for further information.

Alan Graca

Technical Director
