

Managing Director

Alderney Electricity is the electricity and fuel supplier for the Channel Island of Alderney

The Board is looking to recruit an exceptional person with wide ranging skills to lead the Company through a significant and exciting period of change as the island transitions to a more sustainable energy future, including integrating grid scale renewable energy systems.

The ideal candidate will demonstrate strong leadership skills. An understanding of utilities, the broader energy sector and renewable generation would be an advantage. An appropriate technical qualification is preferable but relevant experience will also be considered.

A competitive remuneration package is offered for the right blend of skills, experience and ability.

The full job specification and how to apply are available on the website www.alderney-elec.com

Closing date for applications – 29th November 2024
